## Experience

### Stockt

2017

Lead Product Designer

-

Designed experience, interactions, and visual treatment. Performed research, user testing, and front-end development for Stockt, an online marketplace for restaurants to source fresh ingredients.

### Ebay

2016-2017

Product Design Intern

-

Working for Ebay's charity department, performed all research and designed all experience, interactions and visuals for an iOS and Android app to aid lower income students with college.

### Trngle

2015-2016

UX Designer

-

Designed user experience, interactions, and visual treatment for Trngle, a social app which aims to inform, inspire and connect creatives in any field.

### Abroad

2015-2016

UX Designer

-

Designed the brand, user experience and visual treatment for Abroad, an app created to connect students studying abroad with local events.
