James Josephson

I improve our screen time by designing beautiful, fun and intelligent solutions for mission driven organizations.

Experience

Stockt
2017
Lead Product Designer

-

Designed experience, interactions, and visual treatment. Performed research, user testing, and front-end development for Stockt, an online marketplace for restuarants to source fresh ingredients.

Ebay
2016-2017
Product Designer

-

Working for Ebay's charity department, I performed all research and designed all experience, interactions and visuals for an iOS and Android app to aid lower income students with the college.

Trngle
2015-2016
UX Designer

-

Designed user experience, interactions, and visual treatment for Trngle, a social app which aims to inform, inspire and connect creatives in any field.

Abroad
2015-2016
UX Designer

-

Designed the brand, user experience and visual treatment for Abroad, an app created to connect students studying abroad with local events.
